LIM KIANG REPORTED TO HAVE FALLEN TO KWANGSI TROOPS

NOW 60 MILES EAST OF PAKHOI

HELP DEMANDED FROM GENERALISSIMO

TSAI TING-KAI APPEALS FOR AID TO FIGHT JAPAN

(From Our Own Correspondent)

Canton, To-day.

Lim Kiang, about 60 miles east of Pakhoi, has been occupied by Kwangsi troops, and public bodies in Hai Hong, which is about 20 miles south of Lim Kiang, have dispatched telegrams to the military authorities here asking for help.

Nanking troops are rushing to South-western Kwangtung to defend the other towns against the Kwangsi invasion. Three Nanking cruisers have arrived in Pakhoi harbour to protect it against the approaching invaders.

Dr. Wang Chung-hui, former judge of the World Court, will arrive here this morning to act as mediator in the Nanking-Kwangsi impasse. Although the judge stated in Hong Kong that he is intimately acquainted with the Kwangsi leaders and will go to Kwangsi on a peace mission, well-informed circles here see little hope of success.

Kwangsi troops have also made their appearance in Hup Po and other counties near Pakhoi. These forces and the 19th Route Army hope to celebrate Mid-Autumn Festival on September 30 in Canton.

"I am going to fight the Japanese, so please give me financial support." This is stated to be the radiogram dispatched abroad by General Tsai Ting-kai, who has reorganised his 19th Route Army in Kwangsi in another bid for military and political power.

When he visited the Straits, America and Australia two years ago, General Tsai was assured of financial assistance from overseas Chinese in the event that he resumed command of the troops to fight the Japanese. He immediately went to Kwangsi, when General Li Tsung-jen and Pai Hsueh-shi, Kwangsi military chiefs, invited him to go there to re-organise the 19th Route Army.

CONFIDENT OF SUCCESS
With his headquarters in Wuchow, General Tsai Ting-kai hopes to make a swift push into Kwangtung by taking advantage of his knowledge of the geographical position of this province and the unfamiliarity of the Nanking troops of their bearings.

If General Tsai is checked in his eastward drive, he will penetrate into Hunan or Kweichow.

GENERAL PUTNA ARRESTED

Military Espionage Charge?

SENSATION CAUSED IN LONDON

"CHINA MAIL" SPECIAL

London, To-day: The arrest in Moscow of the Soviet Russian Military Attache to London, General Putna, has caused a considerable sensation here, particularly in view of the circumstances under which it took place. Two days before the General had been urgently summoned to Moscow under the pretext that his presence there at a military conference was required.

The Evening News had published a report that two members of the O.G.P.U. had searched all the private correspondence and documents of the Soviet Russian Embassy, and that Russian agents had tried to gain information from the London Russian emigres as to whether General Putna had received visitors from the Continent. It is stated that the General will probably be tried on the grounds of military espionage. — Trans-Ocean Service.

GENERAL COMBOES ILL

Budapest, To-day: — Hungary's strong man, General Comboes, is severely stricken with an internal complaint which, it is expected, will enforce his retirement, shortly, from all official duties. — Reuter's Bulletin Service.

FINAL EDITION

REBELS ABANDON DIRECT ATTACK

BATTLE FOR MADRID NOW DEVELOPING

INTENSIVE AERIAL ACTIVITY

Hendaye, To-day.

Artillery was prominent at the resumed battle for Irun yesterday and each side had an aeroplane aloft to signal the effect of the firing. The insurgents have apparently abandoned the direct line of attack at Irun in view of the strong Government entrenchments, but the insurgents' reinforcements from Burgos advanced into the hills and appear to have made good progress along the hill crest, although they were definitely held up on the valley road.

Life on the French side of the frontier has become highly dangerous, and a zone extending for nearly a mile between Hendaye and Behobie has become a forbidden area for road traffic.

In Madrid the battle for the city is developing simultaneously with the fight in the north. The Government militia claim that they have reached within 20 yards of the top of Leon Pass. A column has been sent out to the north-east with the object of outflanking the insurgents in the Guadarrama mountains, while a second column is operating round Naval Peral, endeavouring to outflank the insurgents from the left, join up with the first column and then encircle the enemy.

Aerial activity is intense. Government planes claiming to have destroyed two insurgent columns with 60 and 23 lorries respectively, and also asserting that they have bombed Melilla, Cordoba and Cadiz, and sunk a steamer laden with rebel munitions in Ceuta harbour.

ANOTHER INSURGENT CHECK

Hendaye.—The struggle for the possession of Irun and San Sebastian was resumed yesterday and resulted in another insurgent check. Following a heavy barrage from both sides, the insurgent attacks broke down and they were early compelled to abandon the direct attack along the road, while the attempted flank movements on the slopes of Mount Turiarte also ended in failure.

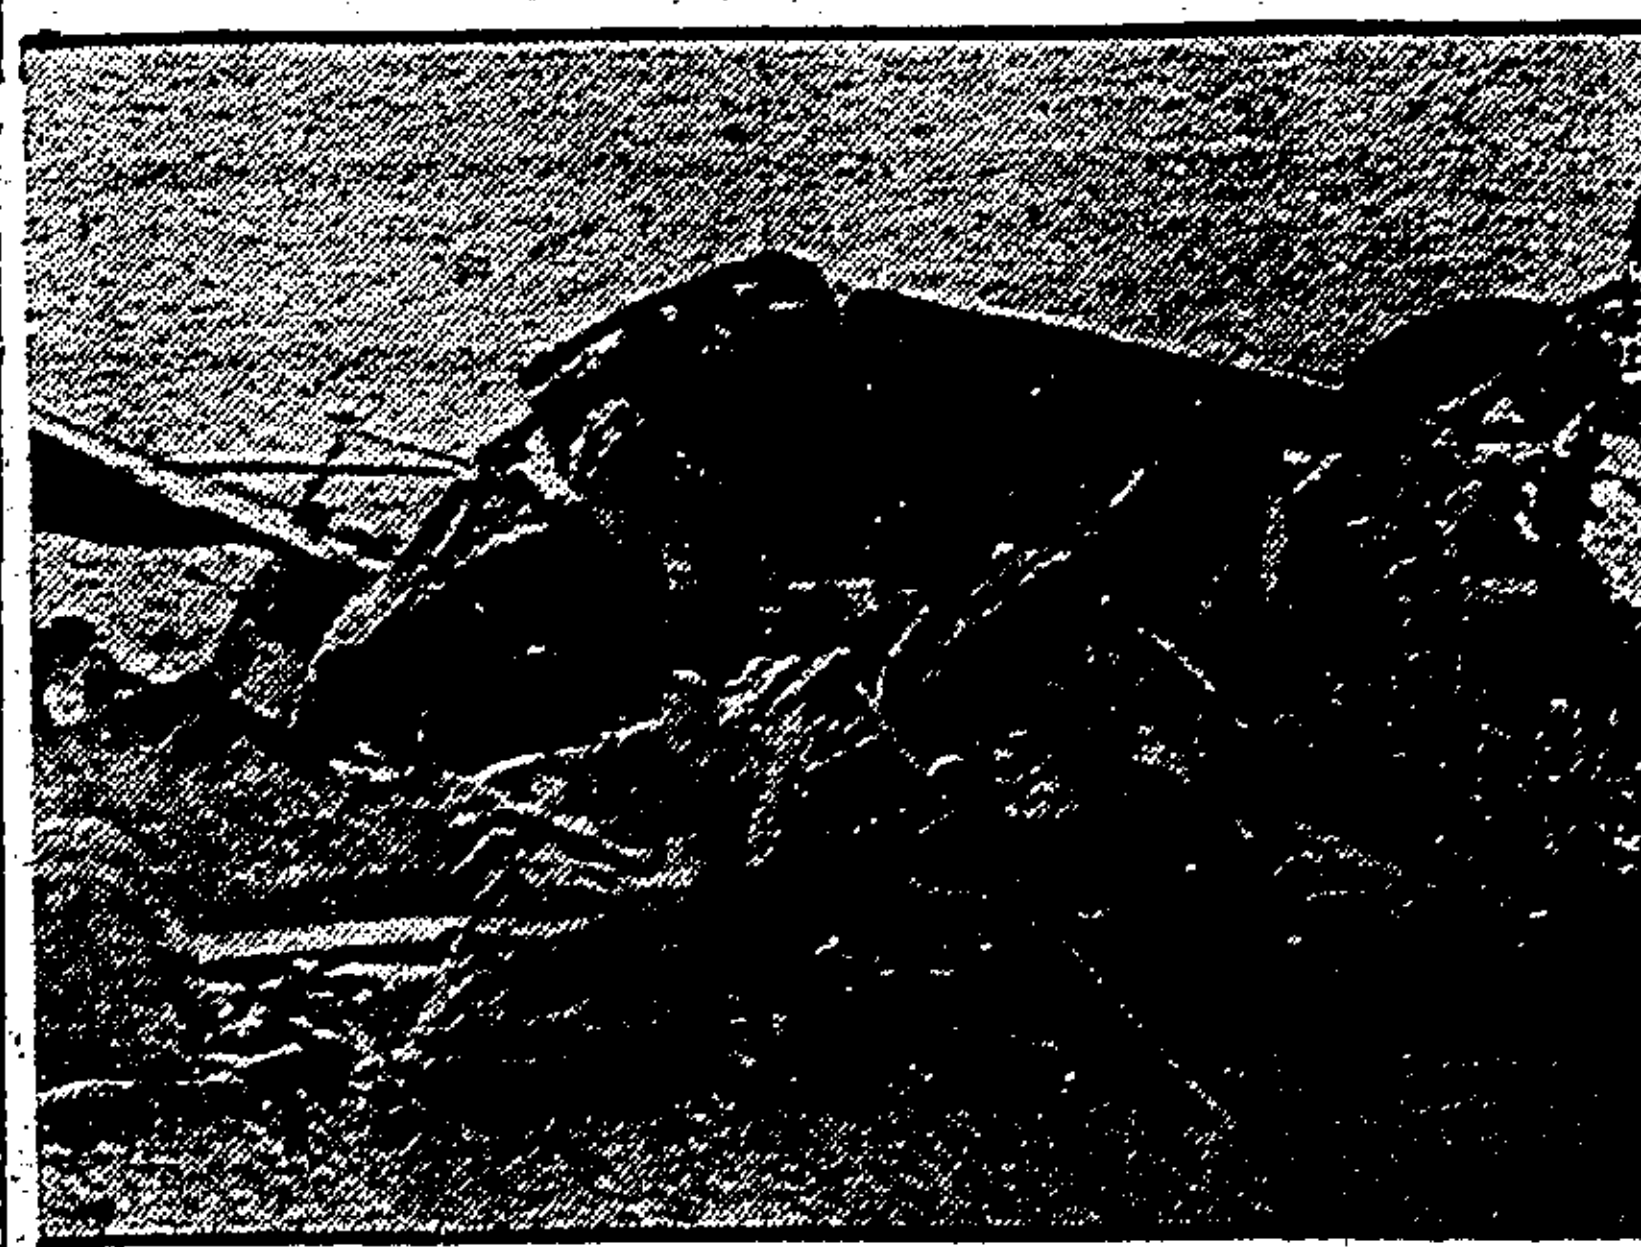

Following the arrival of reinforcements from Burgos, the insurgents appear to have made some progress in the hills, but they did not succeed in taking any strong Government positions.

AFTERNOON SIESTA

In the afternoon firing slackened, both sides seeming tacitly agreed to have a siesta while the front (Continued on Page 10)

COUNT COVADONGA IN CRITICAL CONDITION

New York, To-day. — The condition of Count Covadonga, the eldest son of ex-King Alfonso of Spain, who is in hospital suffering from haemorrhage, is critical. The Count has lost blood continuously during the past 24 hours, since having a boil lanced. — Reuter.

Ray Jones, aged 28, of St. Joseph, Missouri, one of the best known pilots in the South-western States, tried out this Cypri-Moth plane for a friend last month. Returning after the flight to the Wichita, Kansas, airport, Jones called the ship on its back, one of his favourite stunts. The controls froze and the landing was made upside down. Jones was instantly killed.

JAPANESE AND MANCHUKUOAN TROOPS ATTACK SOVIETS

Fire Not Returned

Moscow, To-day.—A protest against an alleged attack on Soviet frontier guards by Japanese and Manchukuoan troops in the region of Poltava, has been made by M. Kozlovsky, head of the eastern section of Foreign Affairs Commissariat, to Mr. Sako, the Japanese Charge D'Affaires. The incident is alleged to have occurred on Wednesday when shots were fired at the Soviet guards who, however, did not reply. — Reuter.

ANTI-JAPANESE AGITATION

Suppression Demand From Tokyo

Shanghai, To-day.

From Tokyo dispatches it is learned that the demand that China must effectively curb anti-Japanese agitation will figure prominently in the diplomatic action to be taken by the Japanese Government over the Chengtu incident.

While the Foreign Office is awaiting a full official report of the case before mapping out the course of action, well-informed observers are agreed that the thorough suppression of the popular movements in China against Japan will be asked. — Reuter.

The Infante Don Juan, above, third son of ex-King Alfonso, is the reported choice of several groups of Spanish insurgents who, it is said, would place the Prince on the throne if they are successful in their revolt. Don Juan, aged 23, is now at Cannes, France.

WARNING TO SPAIN

KILLING OF PRISONERS NOW WORLD AFFAIR

British Message To Ambassador At Hendaye

NON-INTERVENTION PLANS

London, To-day.

The internal politics of Spain concern only the people of Spain, but the mass execution of war prisoners and the barbarous reprisals engendered in that connection are matters to which all civilised states cannot be indifferent.

This point was stressed in a communication from the Foreign Office to the British Ambassador at Hendaye, welcoming the project to co-operate in the scheme to approach the leaders of both sides and emphasising the urgent desire to play a full part in the organised international effort which is hoped to have favourable results.

ACTION URGED

London. — The Franco-British Governments have approached all the 18 European powers which have not yet adhered to the plan of non-intervention in Spain, urging them to do so immediately. Some of the States have already applied the embargo unilaterally and Portugal has notified France that she is prepared to take action in accordance with her declared policy.

COMMITTEE PLANS

London.—The project for an establishment of a committee to supervise the arms embargo on Spain, mentioned yesterday, is taking shape. The committee will also probably take charge of the Hendaye Ambassadors' scheme to alleviate the suffering of the war prisoners and other victims of the civil war.

REQUEST TO PORTUGAL

London. — The British and French Ambassadors in Portugal, on behalf of their respective Governments, have requested the Portuguese Government to embark on the embargo on arms and aircraft against Spain as soon as possible, in consideration of Portugal's adherence to the non-intervention pact regarding the Spanish civil war. — Reuter's Bulletin Service.

SCHACHT EXPLAINS GERMAN ACTION

Seeks To Allay French Anxiety

Paris, To-day.

Dr. Schacht, President of the Reichsbank who is at present on a visit to the Governor of the Bank of France, M. Labeurre, according to an authoritative German source, sought, in his talks with the French Premier, M. Leon Blum, and his colleagues, to allay the French anxiety regarding Chancellor Hitler's new conscription scheme, and explained that the object of it was simply for protection, in view of Soviet Russia's massive rearmament and foreign policy.

It is understood that Dr. Schacht cited statistics to show that the Press figures of the strength of the new German army were grossly exaggerated. — Reuter.

EXPLOITATION OF ABYSSINIA

First Step In Italy's Financing Scheme

Rome, To-day.

Regarded as the first step towards the big financing scheme for the early exploitation of Abyssinia, an official decree authorises the Finance Minister to issue special treasury bonds in foreign currency, redeemable in periods from 12 to 36 months, which are to be placed in foreign stock markets.

The rate of interest has not yet been fixed, but it is thought that the operation will probably be dealt with in the United States when the new Ambassador, Signor Suvich, arrives in Washington in October. — Reuter.

FOOD SHORTAGE SEQUEL IN SOUTHERN ALBERTA

Pekisko, Alberta, To-day.

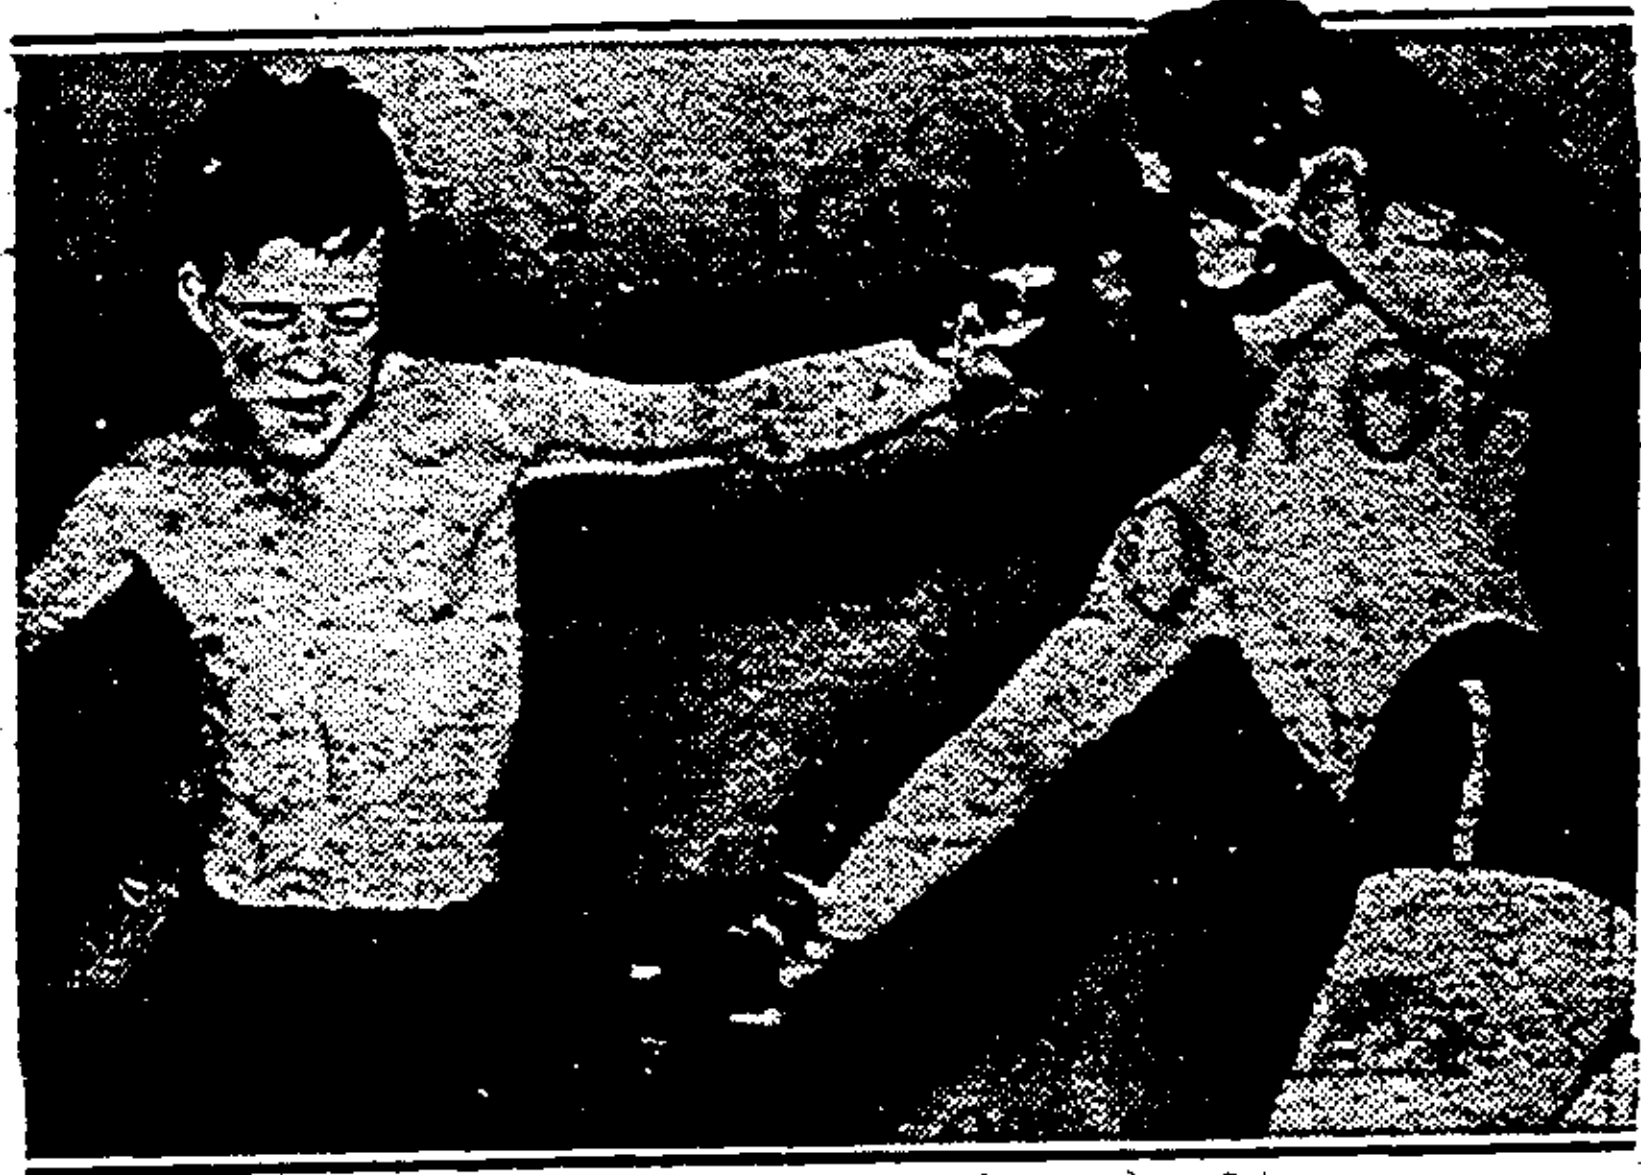

Because the food shortage in Southern Alberta affects the Royal ranch, the manager has announced that 40 head of His Majesty King Edward's 160 Scotch Shorthorns will be sold by auction, thus enabling the eastern Canadian purchasers, who are unaffected by the drought, to improve their cattle herds. — Reuter.

RECREIO TROUNCE K.B.G.C. TO SECURE RUNNERS-UP BERTH

John Healy, flyweight boxer, left, let loose a roundhouse left at Billy Taylor, and the thought of the carnage was so shocking that he closed his eyes. Sad to relate, the blow did not land, and Johnny was a very surprised young man. The pair were working out in Chicago for the Catholic Youth Organisation bouts at Soldier's Field.

HONG KONG SWIMMING CHAMPIONSHIPS

THIRTEEN EVENTS ON FOUR DAY PROGRAMME

(By "CRAWL")

A MEETING called for yesterday evening at 6 p.m. by the Swimming Committee of the Victoria Recreation Club for the purpose of electing officials for the forthcoming Colony swimming championships, which will be held under their auspices, drew a very poor response from the swimming clubs of the Colony, only two clubs, the European Y.M.C.A. and the Hong Kong University, being represented.

Owing to a lack of representatives, it was decided to approach these officials through other channels. The Colony championships will be held Tuesday, Wednesday, Friday, September 15, 16 and 18, respectively, at 6 p.m. and Saturday, September 19, at 9.15 p.m.

Heats (if any) will be swum off on Friday, September 11, at 6 p.m.

It is a curious thing; but several of the Colony's leading swimmers are at present out of action. Wilfred Lawrence, injured his left hand swimming outside the seawall the other day and will probably be laid up for another fortnight, while A. A. da Rosa has been suffering from bronchial catarrh. H. L. Oporio, another Colony star, is down with an injured foot.

The following is the complete Championship programme:

Tuesday, September 15—

Commencing 6 p.m.—

100 Yards Free Style—Championship of the Colony.

Throwing the Polo Ball—Championship of the Colony.

100 Yards Back Stroke—Championship of the Colony.

Wednesday, September 16—

Commencing 6 p.m.—

100 Yards Free Style—Ladies Championship of the Colony.

360 Yards Free Style—Championship of the Colony.

Team Race—Open to the Colony—4 men, 50 yards each.

Friday, September 18—

Commencing 6 p.m.—

100 Yards Free Style—Boys' Championship of the Colony (15 years and under).

Long Plunge—Championship of the Colony.

220 Yards Free Style—Championship of the Colony.

Saturday, September 19—

Commencing 9.15 p.m.—

50 Yards Free Style—Championship of the Colony.

100 Yards Breast Stroke—Championship of the Colony.

Diving—Championship of the Colony.

440 Yards Free Style—Championship of the Colony.

Entrance Fee—\$1.00 each event.

Team Race \$2.00 per team.

Entries Close on Friday, September 4, at 6 p.m.

CRAIG BEATS FINCHER IN PRESIDENT'S CUP

A First Round match in the Kowloon Cricket Club President's Cup Lawn Bowls competition was played on Wednesday when R. G. Craig defeated E. C. Fincher by 21 shots to 10.

ARCULLI'S WELCOME RETURN TO GAME

PORTUGUESE JUNIORS' MERITORIOUS WIN

JACK RODGER AGAIN IN LIMELIGHT

(By "Skip")

BY scoring a great win over the Kowloon Bowling Green Club last Saturday, Club de Recreio practically assured themselves of the runners-up position in the First Division of the Lawn Bowls League, and indications are that they will enjoy the same honour in the Second Division, in which they also gained a win to complete the "double" against the junior champions.

A win for Craighengower "B" over their "A" team, a very unlikely contingency, would have given them a good chance of challenging the Portuguese club, who are now four points ahead, but with one more match played. That Club de Recreio, playing at home, were full value for their good win is indicated by the fact that they were well up on two of the rinks, and lost on the other by a bare shot, Holland making a last-minute effort to score seven in three heads for the skip's two points.

The visitors made several changes in their rinks, Willie Macfarlane, an Interporter as long ago as 1927, playing No. 3 to Holland, while Henderson was similarly positioned to Guy, who was 15 down to Dick Alves. The latter had the game in his pocket all the way through. Duncan and C. G. Silva had a much closer battle and were 5-all, then 17-all, after which the home skip scored eight on the remaining five heads.

Champions Should Avenge Defeat

K.B.G.C. ASSURED OF WIN AGAINST POLICE

(By "SKIP")

The full programme arranged for May 16, which was washed out by rain on that date, is to be played to-morrow and I do not expect any surprise results. Craighengower will entertain the Civil Servants and will no doubt handily avenge their only defeat of the season. I understand that U. M. Omar will be available again, but they will be without D. Rumjahn, who is in hospital.

Veteran Lawn Bowler

S. ROSSET is one of Craighengower Cricket Club's oldest playing members in the lawn bowls section, having played for their First Division team since 1923, one year after the formation of their bowls section.

Born in Hong Kong, he was educated at the Diocesan Boys' School, but was never conspicuous in sport until he left school and joined the Victoria Recreation Club, where he distinguished himself as an oarsman. In 1920 he stroked the winning crew for the Chinese Challenge Cup, presented by the Chinese General Chamber of Commerce.

Rosset has played bowls continuously for the last 13 years and has only missed three or four Saturdays, excepting, of course, the one year he was on Home leave—a remarkable record!

In 1931 he skipped the Swiss International four in the Gutierrez Shield competition, but a weak team was eliminated in the opening round. He was also a member of the first successful Craighengower team in the First Division, in 1927, and was also a member of the champion teams of 1928 and 1929. Owing to pressure of business, he has reverted from the Craighengower "A" team to their "B" team, as he is only able to devote his Saturday afternoons to the game.

He was elected Vice-President of Craighengower Cricket Club in 1933, 1934 and 1935 and has been on the Committee since 1927.

18 LOSERS FOR G. RICHARDS

Three Bad Days At Brighton Meet

London, August 7.

Gordon Richards, the champion jockey, had no better luck at the Brighton race meeting yesterday than on the two previous days.

All his six mounts were beaten—five of them unplaced. Since he won on Golden Rod at Chesham on Monday he has had a sequence of 18 losers.

His longest losing sequence this season was 23.

The jockey of the moment is the veteran Carlisle, who in the last seven days' racing has had eight winners.

American supremacy in the Olympic field and track events at Berlin was threatened this year by the strongest contingents of stars other countries have produced in years. Nishida (left) of Japan, though capable of 14 feet or better in the pole-vault, was unplaced. Miss Gisela Manermeier (centre), German discus and shot-put star who recently set a new women's world record, however, won the Gold Medal. Juan Zabala, 1932 Olympic marathon winner, though he had been displaying top form in a European tour prior to the Games, failed to finish at Berlin.

ARCULLES WELCOME
RETURN TO GAME

(Continued from Page 2)

across the Police very handsomely, although Joe Fraser lost his 100 per cent skip record to Bill Holland, who, as a result, goes to the top of the table, as Bob Duncan lost at King's Park. But it needed one out of the bag on the part of Holland's men to pull it off; they secured a four at the last head to win by two shots! He started off with a lead of 11 shots to 2, but Fraser gradually crept up to overtake him at the 20th head. Glen Cooper and Mair had a dour struggle, with the latter leading most of the way, only to be "pipped" on the post, here again by a four on the last head.

It was a different story on Cullen's rink, however, where he was opposed to Logan. Playing a marvellous game himself, (I have heard it described as one of the best exhibitions of skipping this season) he held the lead all the way to finish up by scoring on the last seven heads, and winning by 16 shots.

Lapsley was again in good fettle—but his opposite number, J. Shepherd seems to have lost the touch which secured him his Interport badge last year.

Valiant Effort

Although they are not at the bottom of the League at present, I do not think that the Indians will be able to avoid the wooden spoon. They made a valiant effort last Saturday by beating Talkoo, but the latter, although two points behind, have no less than four matches in hand and should be able to gather a few more points before the season closes.

The Indians play their last match to-morrow. It was Madar who did all the damage at Sookm-poo last Saturday—he had a very useful win of 21 shots, against Neil Drummond, whose rink could not get going at all. Wallace was the only Talkoo skip to win, although Chalmers lost by two, but only on the very last head.

Rose Trounced

In the junior division, Club de Recreio upset calculations when they beat Kowloon Bowling Green Club at Austin Road and reversed the previous result at King's Park, where the Portuguese lost earlier in the season by 21 shots. F. X. Soares achieved his ambition in being "drawn" against Rose's rink—minus C. B. Hosking—and he won by 14 shots! Walker and Luz (junior) had a good tussle as the leads, but Rose did not receive his usual support, and the head was usually "bottled up" when he went down to bowl. Yvanovich played a good game as No. 3 to Soares, who apart from his building up of the heads, played a good game himself and fully held his opponent.

Thompson, meanwhile, was jumping to the top of the Junior Skips' table by beating C. H. Basto by 15, but Sheriff was down by five shots to Silva. Machado held Rogers well, but it was Ribeiro who did most of the damage, his opposite number, White, being badly off his game. Sheriff played his best game of the season and the rink owed it to him that their defeat was not a very much heavier one.

Rodger Again

The Football Club "A" team had a regular set to with the "Old Uns," just scratching home by a brace, thanks once again to Jack Rodger, who had enough in hand to carry the losses sustained by Robertson against Edwards, and Russell in opposition to Jake Selby. Rodger scored a five, early on, a seven mid-way through, and retained the points by snatching another five against Haynes at the 20th. A good afternoon's work "Jack!"

The Police, at home, were too good for the Electricians, for whom only Lunny, with a tie against Riddell, was most successful. Craighower, Juniors figured on the right, side of a high-scoring game against the Yacht Club. Robertson had a big win against Abbas, but this was more than counterbalanced by Alves' 24-shot victory against R. E. Manghan, whilst Ward, after being led 15-11 at the 16th end, ran out with 13 shots, including a six, Stevenson being "blacked" for the last five heads.

Harry Strange won the match for the Civil Servants against the K.C.C.—he scored a three on the last head, when the teams were all square, with his rink to finish. Hint, played a good recovery against Westlake, being a couple of shots behind at the 15th end, but he was already too far down to make any tangible difference.

RUNAWAY BALLOON
IN POLAND

Gordon Bennett Entry
Breaks Loose

"CHINA MAIL" SPECIAL
Warsaw, To-day.

The Polish balloon Kattowice, which was to take part in the Gordon Bennett Race on Sunday, made a somewhat premature start yesterday, when it flew away by itself. The balloon was being filled with gas, when the net attaching it to the gondola broke, and a strong wind carried the balloon away. In the on-coming darkness, the runaway disappeared in a south westerly direction.—Trans-Ocean Service.

FRIENDLY HOCKEY
AT SHAMSHUPO

East Lancs. Defeated
By Fusiliers

In a friendly hockey match played at Shamshupo Camp yesterday, the Royal Welch Fusiliers beat the East Lancashire Regiment by the odd goal in seven after sharing two goals at the interval. After Jones and Brutof had given the Fusiliers a two-goals lead, Sergt. Pepper retired from the game for a short period owing to injury. The Fusiliers scored their winning goal after Pepper's return.

POSTPONED BOWLS CARD
TO-MORROW

(Continued from Page 2)

The Kowloon Bowling Green Club are to visit the Police and, with a re-arranged team, may win by a very small margin. Randle has won promotion to skip, while there are one or two changes which it is hoped will strengthen the team, although, as they have only one more match to play, the move, appears to be a belated one.

Club de Recreio go down to Talkoo and will be anxious to retain their present League position, and I feel they will do it with a good few shots to spare.

Lock's "Gummy" Leg
Kowloon Dock are meeting the K.C.C. at Hingham and are favoured to win as they are in good form just now. McKelvie will not be able to play as he has a "gummy" leg.

The Indians are at home for their last match, which is against Craighower "B", whom I rather think will be able to gather the points.

The potential junior champions must surely beat the Police at Austin Road and I think it will be just a matter of what the margin will be. Other likely home winners in the junior League are Club de Recreio, hosts to the Yacht Club, the K.C.C., who are meeting the Electricians whose floodlight practice may prove beneficial to the team and the Football Club "B". I tip an away win for the Football Club "A", although they sustained a severe defeat on the C.S.C.C. green last year.

IN MEMORIAM

HOLLANDS.—In loving memory of Guy Hollands who died on the 28th August, 1934. Ever in our memory.

Hong Kong, Friday, August 28, 1936

Work And Prosperity

Approximately half a million more insured persons were at work in Britain last month than at the same date last year. That striking figure means that, notwithstanding the decline in export trade in the years of depression, there are more people in employment in Britain than ever before in her history. Growth in population explains the fact that with 1,652,000 persons on the register of unemployed the factories and workshops are actually busier than ever they have been and are turning out more goods. Half a million increase in employed only reduces the number of unemployed by 320,000 because of the new hands that have come into industry. In the Midlands Britain has the busiest area in the world, with the factories working much overtime and unable to overtake the demand for manufactures. Cotton is employing 33,157 more workers than a year ago. Coal, hard hit by world conditions, has sufficiently recovered to give employment to 59,652 more workers.

Prosperity is extending from the South and the Midlands to the stricken areas. In the North-Eastern districts, mainly concerned with the heavier industries—coal, iron, engineering and shipbuilding—the fall in the number of those on the unemployment registers has been 37,910 in a single month. A facile, but strikingly incomplete, explanation would be the rearmament programme. As yet the effect of that must be small; most of it is still to come. British capacity in iron and steel production has been greatly increased, but the demand for ordinary commercial purposes has filled order books for months and probably years ahead. Tyne and Wear and Tees are busier in building new commercial vessels than they have been for years. When the orders for warships are added the revival that is already manifested through the whole district will be intensified. Up to the present what is being seen is the effect of an increased home demand, with growing confidence in the early expansion of export trade and the consequent need for more carrying capacity.

Sporting Challenge

Hope springs eternal where the America's Cup is concerned. Eighty-five years of unsuccessful striving to win back the trophy has not shaken confidence that it may be recovered. The challenge from the Royal Yacht Squadron, made possible by the sportsmanlike spirit of Mr. T. O. M. Sopwith, should ensure another series of races next year. Not until Endeavour II has been put to serious test has the decision been taken to try her against the best yacht that America can build in the next 12 months. Before the disaster to her mast the new yacht had shown herself faster in heavy breezes than any possible rival on this side of the Atlantic. Whatever the result next year she is a competitor worthy to call forth all the skill and ingenuity that the American builders possess.

If to the general public on both sides of the Atlantic the

BREVITIES

The R.M.S. Empress of Asia is due here from Manila at 7.00 a.m. next Wednesday and will berth at Kowloon Wharf. She will leave for Vancouver B. C. via ports, at noon next Friday.

Lo Lai Hing, aged 58, residing at No. 11 On Lan Street, third floor, was admitted to the Government Civil Hospital yesterday as the result of injuries received when he fell down the stairs of the above address. He succumbed to his injuries at 12.30 a.m. today.

Chau Yong, aged 40, was admitted to the Government Civil Hospital yesterday suffering from an injured leg sustained when he was knocked down by taxi No. 754 in Queen's Road Central.

Driver T. Cushnie, R.A.S.C., was this morning fined \$25 by Mr. W. Schofield at the Central Magistracy for driving a military lorry at the rate of 40 miles an hour in Gloucester Road at 10 a.m. on August 18.

For effecting a public mischief by falsely reporting that he had been robbed of \$120 by three men in a nullah near St. Joseph's Church, Chung Wai was fined \$10 in default one week's imprisonment, by Mr. S. F. Balfour at the Central Magistracy this morning. He was also ordered to be sent back to the country.

The Y.M.C.A. fortnightly picnic will be held to-morrow, the launch leaving the Police Pier, Kowloon, at 3 p.m. On Sunday, the Y.M.C.A. discussion group, led by Dr. Matthews, will meet in the West Lounge at 9 p.m., the subject being "Christ the Saviour of Men."

A whist drive will be held in the Y.M.C.A. West Lounge on Monday, commencing at 9 p.m., and from 7.30 p.m. to 9.30 p.m. mixed bathing will be held in the swimming bath, followed by a buffet supper on the roof, and dancing in the West Lounge. Tickets are \$1.20 each.

John Cameron, an Australian, residing at Phillips House, who was reported missing last night, returned home not long after the report of his absence had been made.

There will be a sporting event, for yachtsmen they have the special interest of putting to the proof the theory that a yacht with the largest dimensions admissible may prove faster than a smaller boat carrying the same spread of canvas. Endeavour II is longer and heavier than Endeavour I, and speedier through the water. Whether she will prove so in the light breezes in which the races on the other side of the Atlantic usually take place only her actual performance can show. In issuing the challenge her owner, her designers and the Royal Yacht Squadron all show their belief in her prospects against the best vessel that the Americans can build. So much persistence and courage as English yachtsmen have shown, generation after generation, is in itself deserving of the success that would bring American vessels to the English Channel in renewed quest of the Cup that has become the symbol of international yachting supremacy.

LORD MAYOR COPELAND

In Merchant Taylors' Hall last month the Marine Insurance Company celebrated its hundredth birthday.

Its first chairman was handsome Alderman W. T. Copeland, Lord Mayor in 1836, at the early age of 38. He presided at the meeting at which the forming of the company was discussed, and it was held at the Mansion House.

A portrait of this Lord Mayor shows that he seems to have been as elegant in his robes as a piece of his own biscuit porcelain. For he was in his time head of the Spode firm of London and Stoke-on-Trent, and seems to have had something to do with the invention of the porcelain known as Parian. Dipping into the history of the company he has managed since 1922, Mr. G. A. T. Darby has found that two of the biggest ships afloat a hundred years ago were the windjammers George IV. and the Earl of Balcarres, each of them between 1,400 and 1,500 tons. Compare this with the 50,773 tons of the Queen Mary!

A comparison of rates then and now is equally surprising. In 1836 the rate on produce in a ship homeward bound from China was 8 per cent; to-day that rate, in a modern liner, would be about six shillings per cent.

Or, take wool from Sydney: in 1836-7 the rate was 2½ or 3 per cent; the rate to-day is something like seven shillings and sixpence.

BORDER BULWARK
OF INDIAAFGHANISTAN'S PRESENT
ROLE OF ACTIONCHALLENGE OF PEACE TO WAR
MAKING FRONTIER TRIBES

(By Rosita Forbes)

AFGHANISTAN provides our longest foreign frontier. For approximately 800 miles her land adjoins territory controlled or influenced by Britain and the boundary, known as "the Durand Line," divides tribes which have the same blood, religion and language.

On both sides of a frontier without geographical or ethnographical significance the hillmen regard the King of Afghanistan as their "Badshah," a Father in Islam. For centuries they have been accustomed to making a living by raiding the Indian plains and the subsidies they now receive, nominally for the protection of the new roads thrust into unadministered territory and stretching like fingers towards the Afghan border, are insufficient to make up for the loss of loot.

Since 1919 Britain has followed what is known as "the Forward Policy," which consists of making successive drives into the belt of tribal territory averaging 50 miles in depth, which separates the "Durand Line" from the "Administrative Border" of India.

Warriors On Wheels

This belt is inhabited by 240,000 free hillmen who have hitherto regarded Afghanistan as a refuge and sought allies among their brother Mohmands, Shinwaris and Safis, across the Durand Line. Such drives have been followed by the building of roads and forts, with the result that the wild Waziris and Afridis are beginning to develop needs that can only be satisfied by trade.

Rifles are no longer the only tools of the frontier tribes. A tradition has arisen which makes it bad form to commit murder on the main roads, with the result that a number of warriors have turned themselves into mechanics. Waziris have captured the lorry traffic to Wana, a fort surrounded by barbed wire on the edge of No Man's Land, and Afridis drive two-ton trucks from Peshawar through the Khyber to Kabul.

Pathans are being encouraged to experiment with fruit and cotton-growing. Broadcasts in Pushtu provide the amazed villagers with lectures on agricultural reform, trade, sanitation, and the suppression of unnecessary murder, and the older men, who love speech as much as they love "a beautiful war," are furious because they cannot argue with the loud-speaker.

Dismay In Kabul

Meanwhile, the "Forward Policy," dear to officials concerned with the security of India and the defence of such frontier towns as Peshawar, vulnerable in a plain surrounded by mountains, is regarded with dismay in Kabul, where the Government is primarily interested in the peace of Asia.

For Afghanistan is a Switzerland inhabited by fiercely independent peoples, their isolation secured as much by the fears of Russia, Persia and England as by their own courage and experience of war.

The modern kingdom, with its population of perhaps ten millions, gradually forming under the guidance of the Prime Minister, his Royal Highness Sardar Hashim Khan, Asia's wisest politician and one of her strongest men, has an army of some 50,000. So many recruits are supplied by each tribe.

ALLEGED MURDER CROWN CASE AGAINST INDIAN CONSTABLE

CENTRAL POLICE STATION SHOOTING EPISODE ON JULY 26

An Indian constable, Bhag Singh, B90, stood in the dock at the Central Magistracy yesterday afternoon on a charge of murdering a fellow constable, Sahib Singh, B695, in their quarters at the Central Police Station on July 26.

Accused was represented by Mr. W. M. Brown, of Hastings & Co., Mr. E. H. Williams, Assistant Attorney-General, appeared for the Crown assisted by Chief Detective Inspector J. Murphy, and the case was heard by Mr. W. Schofield, the First Magistrate.

Mr. Williams, outlining the case for the Crown, said deceased was 30 years of age and a 2nd Class police constable. He had joined the Hong Kong Police Force in June 1927 and was transferred from Sheung Shui to Central in May of this year. He was of a mild disposition and there was no evidence that there had been any trouble between him and accused.

Accused was 32 years old and had nearly 13 years' service. He was also at Central, having been transferred from Stanley.

The men occupied the same bedroom on the second floor of the Central Station block, and in the room were two rifle racks, some boxes of ammunition and personal belongings, all of which were invariably kept locked. Every Indian in the Force (with certain exceptions) had a rifle which he kept even when transferred from one station to another, and accused's rifle was the usual .303 service kind. He also had 10 rounds of ammunition served him at Central which he would keep in his box.

Issued With Revolver

On July 26 at 7.45 a.m., accused was issued with a loaded revolver as he was to go on duty at 8 a.m. He came off duty at noon and appeared quite normal when he handed in his revolver. A few minutes later he went to his room, where B 579, who was resting, asked him to fetch some ceremonial pudding from the Sikh Temple at Police Headquarters. Accused did this, but as he was receiving the pudding the priest smelt liquor on his breath and upbraided him for coming to the Temple after he had had a drink. The priest would say, however, that accused was not drunk.

Accused returned to his room about 12.35 p.m. and he had not been there long when an incident occurred which might or might not have a bearing on the crime.

Talking To Himself

B 771 who had also come off duty at noon was resting in the same room. Accused, soon after he had returned, began talking to himself, whereupon B 771 said: "Shut up, let me sleep."

Accused replied: "Carry on, I will not disturb you."

B 771 said: "You always drink wine. You are worse than a coolie. That is why you are not allowed to enter the Temple."

A quarrel ensued, and B 771 got up from his bed and took a stick

Accused also looked round for a stick but could not find one, and B 579, who was present, went between them and calmed them down. B 579, B 168, B 396 and B 588 witnessed this incident, though B 771 strenuously denied it at the time.

Movements Unknown

From this time the movements of accused were unknown until nearly 5 p.m. for he left the room. Four of the Indians commenced a game of cards and some others began to play dice; both games were for fun and were peaceably conducted until the shooting began. B 586 was leaving the police compound about 4.45 p.m. when he met accused coming in dressed in plain clothes. They had a perfectly rational conversation about visiting hours at the Government Civil Hospital, and accused was not drunk, though he smelt of liquor.

All the members of the card party saw accused pass along the verandah about 5 p.m. to his room, and two of the party would say that B 26 was walking with him and the two were quarrelling. B 26 gave the accused a push, which caused him to fall over a bench, and accused rose to retaliate, but B 588 and B 504 intervened and pushed the men into their respective rooms. This incident was strenuously denied by B 26, B 588 and B 504, and the weight of evidence was against there being such an incident.

His Rifle Used

At any rate there was abundant evidence that accused returned to his room about 5 p.m. From evidence found after the firing, it was most probable that accused then went to his box, took out his 10 rounds and put them into his rifle. The rifle used in the shooting was later found to be his rifle. Two clips were found immediately after the firing took place, one on a chair near the rifle rack and one near the rifle rack where accused kept his weapon.

Between 5.5 and 5.10 p.m. a shot rang out; the card players and dice party looked up and saw accused standing at the door of his bedroom with his rifle at the "standing load" position facing the direction of the card party. Before they could realise what was happening he worked the bolt and fired a second shot, scattering some plaster from the verandah on to the dice party. The eight

The Free City of Danzig has become the newest European powder keg. men scrambled to their feet and forming the intent to kill, though his judgment may have become disordered and his feeling inflamed by the amount of drink taken. Consequently he was guilty of murder, in the submission of the Crown.

Photographs Produced

Sergeant MacKay was the first witness. He produced photographs of the scene of the crime.

Plans of the portion of the building concerned were given in evidence by Mr. B. Penzance of the Public Works Department.

Mr. V. C. Branson, Government Analyst, said he analysed samples of blood and urine. He found the alcoholic content of the blood to be 260 mg's per 100 c.c.'s, and the alcoholic content of the urine to be 440 mg's per 100 c.c.'s.

In reply to Mr. Brown, witness said he preferred not to speak of the usual ratio of the alcoholic content in the blood to that of the urine, as this was more in the province of a medical man.

The Police Armourer, Crown Sergeant W. R. Scott, gave formal evidence of his examination of the rifle and spent ammunition, after which the hearing was adjourned to 2.30 p.m. to-day.

SALVAGED CARGO SOLD

Typhoon Echo

An auction sale was held in the godowns of the China Provident Loan and Mortgage Company, Kennedy Town, yesterday afternoon, when cargo salvaged from the s.s. Sunning, wrecked near Rennie's Mill during the typhoon of August 17, was put up for sale.

There were 1,115 cases of dried lichees, four cases of pills and 85 cases of medicine, in addition to 58 cases, or bales of leather. The lots were cleared off at from 50 cents to \$300 a time, and the auction, conducted by Mr. L. E. Lammert and attended by a large number of Chinese dealers, proved a great success.

Hong Kong rainfall for the 24 hours ending at 10 a.m. to-day, was 0.09 inch. The total since January 1, has been 54.42 inches, against an average of 66.12 inches.

ANGLO-EGYPTIAN TREATY

CONDITIONS OUTLINED IN WHITE PAPER

NOT TO BE RATIFIED UNTIL AFTER PARLIAMENTARY DISCUSSION

London, To-day. British Government, and will construct roads, the most important of which is that across the delta, from the Canal Zone to Alexandria, and that from the Canal Zone to Cairo.

The Anglo-Egyptian Treaty which was signed yesterday will not be ratified until Parliament has had an opportunity of discussing it. It is expected that ratification on the Egyptian side will take place sometime in November. After an exchange of the ratifications and the registration of the Treaty at Geneva, a number of matters will arise, including the question of the admission of Egypt to League membership.

The text of the Treaty of Alliance between Great Britain and Egypt is published as a White Paper. The treaty of 16 articles is accompanied by an agreed minute of interpretation, by the notes exchanged regarding several matters, and by a separate convention relating to the immunities and privileges to be enjoyed by the British forces in Egypt.

The Treaty terminates military occupation of Egypt by British forces, and establishes an alliance between the two countries. It continues for a period of 20 years after which, if either party so request, the parties will negotiate with the view of revising its terms by agreement in the light of the then existing circumstances.

PRINCIPLES OUTLINED

The negotiations for revision may, if both parties wish it, be entered into at any time after 10 years. Any revision must provide for the continuation of the alliance in accordance with the principles contained in the present Treaty, defining the scope of the alliance as follows:

Neither party will adopt an attitude or conclude a treaty inconsistent with the alliance. They will consult each other with a view to the peaceful settlement of any dispute with a third State, threatening the risk of rupture with that State. In the event of either party being engaged in war, the other will come to its aid as an ally subject to its obligations under the Covenant of the League of Nations, or the Pact of Paris.

It is provided in advance that the form of Egypt's assistance will be as follows: In the event of war, imminent menace of war or any apprehended international emergency, Egypt will accord all facilities in its power to the United Kingdom, these facilities and this assistance to include use of Egyptian ports aerodromes, means of communication and all necessary administrative and legislative measures, including the establishment of martial law and effective censorship. Among these facilities will be included facilities for the sending of British forces or reinforcements.

SUEZ CANAL

Regarding the protection of the Suez Canal, the Treaty states that, whilst the Canal is an integral part of Egypt it is a universal means of communication and an essential means of communication between the different parts of the British Empire. With a view to ensuring, in collaboration with Egyptian forces, the defence of the Canal, the United Kingdom is authorised by Egypt to maintain in the Canal Zone forces not exceeding 10,000 land forces and air forces not exceeding 400 pilots until such time as the two parties agree that the Egyptian Army, by its own resources, can assure the proper and entire security of navigation in the Canal. These numbers may be increased in the event of war, menace of war, or any apprehended international emergency.

NEW BARRACKS AND ROADS

At the end of the period of the Treaty the question whether the Egyptian Army has become capable to do this may, if the parties do not agree, be submitted to the League Council for decision in accordance with the provisions of the Covenant now in force, or to some other person or body agreed upon by the parties.

The Egyptian Government will build in the Canal Zone additional barracks, required for British troops up to the number indicated above, with full amenities and emergency water supply, according to the requirements of the

100-YEAR OLD LETTERS STILL NOT DELIVERED

San Jacinto Campaign Recalled

A packet of six letters intended for soldiers in the San Jacinto campaign, which won Texan independence 100 years ago, has been found in the archives of the University of Texas.

The letters, never delivered, were given to a special messenger en route to the battleground in April, 1836. The messenger was delayed and did not reach San Jacinto until after General Sam Houston's army had whipped Santa Anna's troops and dispersed.

The letters remained lost until their discovery in the archives.

MIXED RECEPTION IN LONDON

PRESS OPINION DIVIDED

TROUBLE FORESHADOWED

London, To-day. Warm congratulations to the negotiators of the Anglo-Egyptian Treaty are offered by appreciative leader writers in the morning papers, though the *Daily Mail*, *Morning Post* are critical.

The *Times* says that the importance of the Treaty cannot be exaggerated. The conversion of the uneasy, unequal and uncertain association of the last 18 years into a friendly alliance between two equally independent sovereign States is a diplomatic success upon which both Governments and their representatives are to be congratulated.

The *News Chronicle* says that the Treaty is even more satisfactory than had been expected and the negotiators of both nations are to be heartily congratulated on their wisdom and moderation.

Trouble Foreshadowed

The *Daily Herald* believed that the mass opinion in both countries will be more than satisfied that the unhappy past can now be forgotten.

The *Daily Telegraph* refers to the Treaty as an alliance between two free nations.

The *Daily Mail*, however, describes the treaty as a blow to Empire security, while the *Morning Post* says that our worst anticipations were confirmed and that the Treaty looks more like the beginning, rather than the end, of the trouble.—Reuter.

BORDER BULWARK OF INDIA

(Continued from Page 4)

Others are chosen by casting lots in the villages, where out of every group of eight able-bodied men one must serve two years and two months with the colours. Army pay has been quadrupled since Amanulla lost his kingdom as much by his neglect of his troops as by his introduction of reforms opposed to the character and principles of the people.

Soldiers Well Armed

The soldiers are now well armed and housed. Their horses and uniforms are good, and they receive sufficient allowance for food, although it only amounts to 27 Afghanis—13s a month.

Of this army, instructed by Germans and improving yearly in discipline, three divisions are posted within reach of the Indian frontier, but the Afghan Mohmands alone could send a lakh of 30,000 to the help of their fellow-tribesmen across the border, and if the neighbouring Shinwaris chose to join in what has always seemed to them a natural raid upon the infidel, the Government in Kabul, loyally fulfilling its treaty obligations, would have to deal not only with a border in arms, but with religious fanatics to whom the Durand Line is both illogical and invisible.

Afghanistan is the stronghold of Islam in Central Asia. It is probably the most religious country in the world. Beggar and Cabinet Minister are equally observant of the prayers and fasts enjoined by the Koran. There are 20,000 Mullahs between the Russian and British-Indian frontiers, and these men, constituting

one of the most reactionary elements in Asia, have a preponderating influence with villagers and tribesmen.

Reasons For Overthrow

They overthrew Amanulla because his unweaving of women, his shaving of beards, and his imposition of Western habits was, in their opinion, against the spirit of Islam. And they watch the cautious, sensible reforms of the present Government with unremitting vigilance.

Unfortunately, on neither side of the border are there any great tribal chiefs. The Pathans, generic name for the Pushtu-speaking tribesmen south of the Hindu Kush, as opposed to the Mongol-speaking peoples north of this mountain barrier, are too democratic to submit even to an elected authority. They live in communal fashion and pay more attention to the Mullah or Holy man than to the Malik, who, as a headman in unadministered territory, may have accepted and divided among his people a considerable subsidy to maintain and protect the road that is a disagreeable emblem of civilisation, and subsequently finds himself without sufficient power to fulfil his obligations.

Bulwark Of India

It is only during the last 17 years that successive Governments in Kabul have sought to weld into an autonomous nation a conglomeration of dissident tribes, many of them nomads wandering as far as Calcutta, where the Ghilzai become moneylenders, or Australia, where the Kochi sell their camels.

Their efforts have met with some moneylenders, or Australia, stand to-day the bulwark of India against the Soviet Socialist system, which has overthrown the older Socialism of Islam north of the Oxus and spread into Sin Kiang, in Western China. It is natural, therefore, that Kabul, the capital of a young and swiftly developing nation, should regard with dismay the results of last year's frontier disturbances when the Guides were ambushed.

At this moment an undefended road runs over the Nahakki Pass into the upper Mohmand territory. It is a case of "trailing your coat" for the tribes to tread on, and that they are likely to tread is bazaar rumour in Peshawar. Meanwhile, Kabul asks, and has every right to ask, "In return for our guarded North, give us peace on the Southern frontier, peace among the tribes we share."

CORONATION

Flag Manufacturers Overwhelmed With Orders

London, To-day. Flag manufacturers here are being overwhelmed with orders in connection with the Coronation next year. It is understood that the manufacturers are complaining of a lack of skilled operative for making flags, in which connection the cutting and joining require highly skilled labour.

The head of one firm of manufacturers, who is 74 years old, stated that he had been making flags for two coronations and three Empire celebrations, but the orders for His Majesty King Edward's coronation received up to now exceeded the orders on the former occasions.—Reuter's Bulletin Service.

WORLD TO HEAR CORONATION

B.B.C. Plans In Preparation

KING MAY DELIVER EMPIRE MESSAGE

Plans for the Coronation broadcasts next year are already being prepared at Broadcasting House. It is understood that the Westminster Abbey service on May 12 will definitely be broadcast.

It is generally expected that, after the Coronation, the King will broadcast a personal message to the Empire.

B.B.C. officials have visited houses on the probable route of the procession to find vantage points for commentators. Three new high-powered short-wave transmitters at Daventry should be ready for Empire transmissions.

After analysing their records of shortwave reception during May for several years past B.B.C. engineers believe that on the day and at the time fixed for the Coronation world-wide reception conditions will be excellent.

Relaying Facilities

Enquiries about facilities for relaying the programmes are already reaching Broadcasting House from foreign countries, and London will be invaded by commentators from overseas broadcasting organisations.

Mr. Gerald Cock, B.B.C. Television Director, intends to televise the Coronation ceremony. No objection by the authorities is anticipated, as the "television eye," the only piece of apparatus which will be visible, works silently and is practically as unobtrusive as a microphone.

In any event, the B.B.C. will probably televise a film of the procession to the Abbey.

Television Hitch

Whether television will be demonstrated at the Radio Exhibition, which opens at Olympia on August 26, is still uncertain. The B.B.C. has not been able to guarantee that the Alexandra Palace station will be transmitting by that date.

Nevertheless, every effort is being made to have simple test programmes on the air.

Television aeriels are being erected at Olympia by the Radio Manufacturers' Association in the hope that it may yet be possible to give the first public demonstration of high definition television in England.

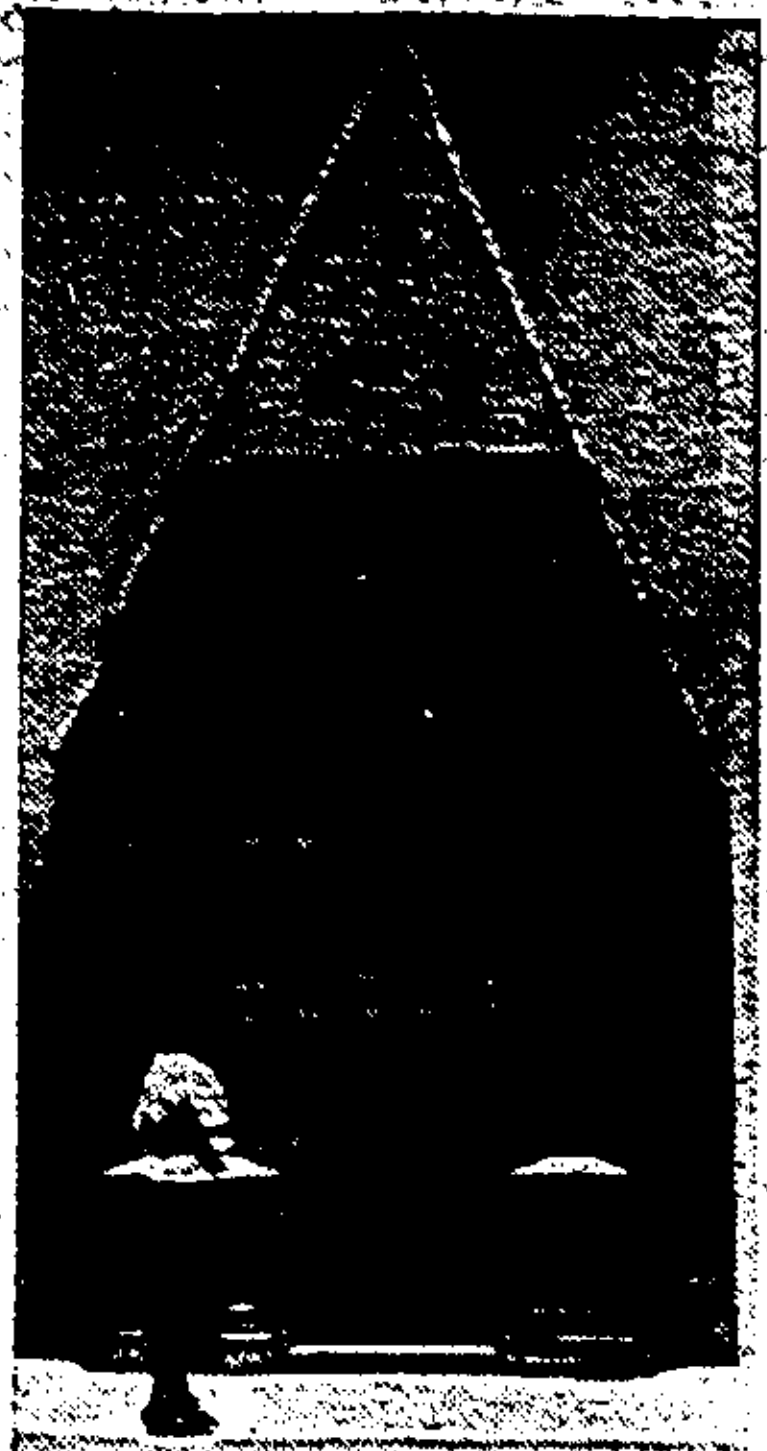

"BIG BAD WOLF" OF MOTOR TRADE

Lord Austin Praises Germans

Lord Austin, speaking last month at a dinner given in his honour in London by the Motor Agents' Association to celebrate his elevation to the peerage, described the Government as the "big bad wolf" of the motor industry. He said that the German Government provided an example of what a Government could do to stimulate trade.

"On several occasions," he said, "not only has the wolf been at the door, but he has got his head inside."

Conditions in the British motor trade, however, were more satisfactory than at any previous time. The 1935 production figures showed a 47 per cent. increase on those of 1929.

A model of the Knochenhauerhaus (Butchers' House) in Hildesheim, built by the Butchers' Guild in the year 1529, was exhibited at the "Germany" exhibition held in Berlin during the Olympic Games.

LOCAL ESTATES

Local estate to the value of \$135,800 was left by the late Mrs. Edith Lilian Sugden, formerly of 124 Coleherne Court, Kensington, Middlesex, who died at the above address on January 15 last. Mr. A. H. Sugden, former Commissioner of Chinese Customs, Dr. E. C. Sugden and Mr. H. F. Bush were appointed executors. An application by Mr. R. A. Wadson, solicitor, the law firm, for sealing probate of the will, has been granted.

The late Mrs. Annie Young, formerly of 127 St. Michael's Hill, Bristol, and of Arlington boarding house, Pembroke Road, Clifton, Bristol, left local estate amounting to \$26,800. The deceased, who was a widow, died at Snowdon Buildings, Fishponds, Bristol, on April 1, 1936. An application by Mr. M. Watson, solicitor, the law firm, for sealing certified copy of probate of the will, has been granted.

The late Mr. L. E. Longbottom, chief draughtsman of the P.W.D., who died at Kowloon Hospital on July 12 last, left local estate valued at \$7,700. Letters of administration to the estate have been granted to the widow, Mrs. Dorothy Longbottom.

SINGER AWARDED \$7,500

Frieda Hempel, former opera singer, was awarded a summary judgment for \$7,500 against August Heckscher on her claim that the money was due under an agreement in which the financier promised to pay her \$15,000 a year for life. Mr. Justice Charles B. McLaughlin, in granting the judgment, based his action on a prior ruling by another justice that Mr. Heckscher had to abide by the contract.

OBITUARY

Mrs. R. White Laid To Rest

OLD COLONY RESIDENT

Old residents of the Colony will regret to learn of the death of Mrs. R. White, which occurred at her residence, No. 5 Shan Kwong Road, Happy Valley, yesterday after a lengthy illness. She succumbed to a heart attack.

The deceased lady was 66 years of age, being born on August 8, 1870. Her death, though not unexpected, came as a shock to her wide circle of friends.

She leaves a family of three sons and three daughters to mourn her loss, besides two brothers and a number of grand-children. Her sons are Mr. H. J. White, of the Kowloon Hotel, Mr. N. B. White, and Mr. G. H. White, formerly Chief Engineer of the river steamer Kwangsi. Her daughters are Mrs. M. A. R. Souza, wife of Mr. M. A. R. Souza, of the Union Insurance Society of Canton, Ltd., Miss Maude E. White, of the Chartered Bank of India, Australia and China, and Mrs. L. C. R. Souza, wife of Mr. L. C. R. Souza, of the Hong Kong and Shanghai Banking Corporation.

The late Mrs. White's two brothers are Mr. H. A. Allen, until recently of the Gloucester Hotel, and Mr. W. Allen, who retired some years ago from the Eastern Extension, Australasia and China Telegraph Company, Ltd. An elder brother, Mr. George C. Allen, died in 1923.

The funeral was held at the Colonial Cemetery, Happy Valley, yesterday evening, the Rev. Cyril Brown, Chaplain to the Missions to Seamen, officiating at the graveside.

The chief mourners were Mr. and Mrs. H. J. White, Mr. N. B. White, Mr. G. H. White, Mr. and Mrs. M. A. R. Souza, Mr. and Mrs. L. C. R. Souza, Mr. and Mrs. H. A. Allen (nephew), E. A. Souza, G. A. Souza and Arthur White (grandsons), and Miss June White (grand-daughter).

There was also a large gathering of friends.

MR. J. P. L. KIM

The funeral of the late Mr. J. P. L. Kim, who passed away at the French Hospital last Wednesday, took place at the Protestant Cemetery yesterday in the presence of a large gathering of relatives and friends.

The Rev. L. L. Nash officiated, and the chief mourner was the widow. Amongst those present were Dr. I. W. Kew, Mr. P. Rathsam, Mr. F. Rapp, Mr. G. S. Ford, Miss A. H. Ismail, Miss R. Simoes, Miss B. Lee, the Misses Ruby, Pansy and Mary Esmael, Mr. E. H. Esmael, Mr. U. H. Esmael, Mr. J. S. White, Mr. G. C. White, Mr. Harry Kew, Mr. Henry Kew, Mr. W. H. Young, Mr. E. Nazarin, Mr. J. E. Kotewall, Mr. K. H. Kwok, Mr. H. Lim and Mr. G. Rocha. A large number of floral tributes were laid on the graveside.

LOCAL NEWS BREVITIES

Two cases of typhoid fever were reported in Old and New Kowloon during the 24 hours ended on Wednesday.

The total length of catchwaters on the island is 184,803 feet, or 25.53 miles.

Repairs will shortly be put in hand on Number 4 pier at the Hong Kong and Kowloon Wharf and Godown Company's wharves at Kowloon. Timber for the laying of a new deck on the wharf has already been ordered by the Godown Company, and when it arrives the work will commence.

Among the arrivals in Hong Kong yesterday morning, aboard the Empress of Asia from Vancouver was Miss Jean Frances Marian Leach, of 1955, West 12th Avenue, Vancouver, who has come to the Colony to marry Mr. Jack Fraser Robinson, of Messrs. Butterfield and Swire.

A Dinner Dance will be held on the open roof of Repulse Bay Lido—weather permitting—and at Repulse Bay Hotel in the event of bad weather, to-morrow at 9 p.m., and the usual Tea Dance will be held on Sunday, at 5 p.m., at Repulse Bay Hotel.

AMERICANS ARE SMOKING MORE

Huge Sums Spent On Cigarettes

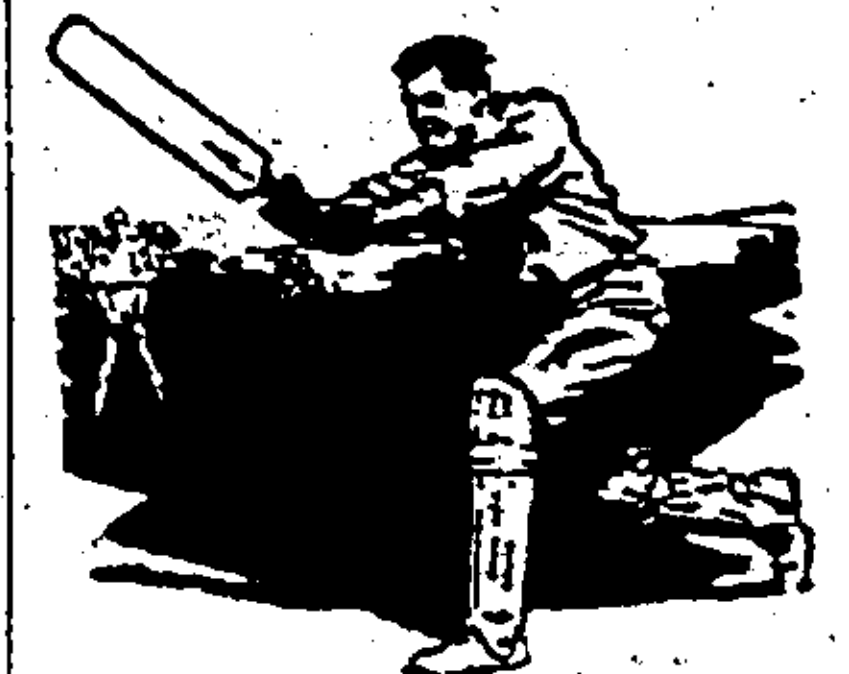

Washington.

A 23 per cent. increase within two years in the number of cigarettes made in the United States is disclosed by the Department of Commerce report published last month.

It is estimated that last year 138,656,000,000 cigarettes were produced, and they had a factory value of \$143,500,000, a gain of nearly 30 per cent. compared with 1933, when the last report was made.

Lieut. P. de N. Ramus, of the Royal Artillery, was fined \$47 by Mr. E. Himsforth at the Kowloon Magistracy yesterday for allowing his dog to be at large without a muzzle.

According to the annual report of the Director of Public Works, the expenditure on Public Works has increased considerably during the last three decades. The average annual expenditure during the years 1906 to 1915 was \$2,072,475, from 1916 to 1925 it was \$7,547,637, whilst from 1926 to 1935 the average annual expenditures has been \$3,207,920.

New York Share Market

Messrs. White, Weld and Com-
 pany, New York Correspondents
 for Messrs. S. E. Levy and Com-
 pany, report:—

Stocks:—The market's complete
 and decisive reversal of yester-
 day's trend, without the backing
 of any important news, implies
 that the minimum correction of
 the rise since April, which termi-
 nated in Friday's break, may have
 been sufficient and that the mar-
 ket will attempt immediately to
 test the year's high levels. If pro-
 fit-taking to-morrow should be
 well absorbed, a continuance of
 the move in heavy stocks, rails,
 coppers and electric equipment
 may be expected and also renewed
 strength in motor and motor ac-
 cessories owing to the imminence
 of Fall business. Business done
 —1,340,000 shares.

Wheat:—We believe that the
 Canadian crop movement is about
 at its peak. We share the opinion
 given in "Standard Statistics" and
 we would cover short. The weat-
 her in Oklahoma, Arkansas and
 Texas was generally fair to-day.
 Total sales:—20,557,000 bushels.

Corn:—We expect a further
 set-back in price, after which we
 would go long. An important
 crop authority says that 1,250-
 000,000 bushels appears to be the
 maximum crop expectable.

Cotton:—Many interests are
 postponing purchases, awaiting
 movement of stocks in order to re-
 lieve crop and consumption pres-
 sure. We suggest the advisabil-
 ity of building a long position on
 recessions.

Copper:—The effective and the
 contemplated increase in copper
 production are both mostly digested
 in favour of the long-side.
 Flash:—Brokers' loans for the
 week amounted to \$871,000,000.

GERMANY'S TRADE
WITH AFRICATwo New Vessels
Built

"CHINA MAIL" SPECIAL

Hamburg, To-day.
 The 16,000-ton liner Windhuk,
 built for the South African service
 of the German-Africa Lines, was
 launched here yesterday. The
 new ship was christened by the
 Governor of Bavaria, General Rit-
 ter von Epp, in the presence of
 many distinguished guests, among
 whom was the former Governor of
 German South West Africa, Dr.
 Seitz.

The Windhuk, which is the
 second of the two large new liners
 for this service, the Pretoria be-
 ing launched in July, in view of
 the rapidly growing trade be-
 tween German and South Africa,
 will enter the service next March,
 while the Pretoria will proceed on
 her maiden voyage to Cape Town
 on December 19.

The Windhuk has passenger ac-
 commodation for 500 and a speed of
 18 knots, which will permit her to
 accomplish the journey from the
 Channel to Cape Town in 15 days.
 —Trans-Ocean Service.

TIN COMMITTEE
MEETINGPostponement Gives
Cause For Hope

London, To-day.
 The announcement of the
 further postponement of the
 International Tin Committee
 meeting, until September 23, is
 welcomed in London as offering
 a ray of hope that the con-
 tinuance of the restriction
 scheme may yet be secured.

It is pointed out that the
 committee would not have con-
 sented to defer the discussions
 unless Siam had made some
 proposals, however informal,
 holding out a reasonable chance
 for an agreement to be reached.
 —Reuter.

Cinema Notes From
The Theatres"FATAL LADY"—QUEEN'S
THEATRE

"Fatal Lady," a new mystery drama with an operatic background, stars Mary Ellis and offers Walter Pidgeon, John Halliday, Ruth Donnelly, Alan Mowbray, Guy Bates Post, Norman Foster and a score of other equally famous stage and screen celebrities in supporting roles.

The Walter Wanger production for Paramount is a story of a famous operatic star with whom it proves fatal to fall in love. Several men seek the affections of the prima donna, and are mysteriously murdered. Innocent of any complicity in the crimes, the star, however, is forced to leave the countries in which they occur, and eventually winds up as a singer in an Apache cafe in Paris.

She has been followed around the world by a young American desperately in love with her, but because of the danger in which her love would place him, she evades him. In an attempt on his life, however, the real culprit is revealed. Romance and music prevail as the drama unfolds.

"A MESSAGE TO GARCIA"—
KING'S AND ALHAMBRA
THEATRES

When motion picture fans see John Boles and Wallace Beery wading through alligator infested swamps in "A Message to Garcia," they are likely to shudder with fear for their favourites, or just dismiss the incident as a cleverly contrived Hollywood illusion.

But they need do neither. Although those alligators were very much alive, neither of the screen players were in danger throughout the shooting of the episode.

Careful handling of the water temperatures in the scenes was the secret that enabled the actors to work with the big 200-pound saurians. Brought from their winter hibernation in which they become completely dormant, the alligators were slowly warmed back to activity, until the thermometers registered 75 degrees Fahrenheit.

At that temperature they threshed about and gave every evidence of being menacing, except that Mr. E. B. Fish, alligator expert, assured the actors that the big beasts were not yet aware of their starved appetites.

Barbara Stanwyck is the leading feminine player in this boisterous, glamorous picture of one of the most audacious adventures in history.

"WOMAN TRAP"—ORIENTAL
THEATRE

This picture bristles with adventure, bustles with action and bursts with drama that makes you sit on the edge of the seat. Aeroplanes, motor boats and sure-footed horses further the brisk plot which starts with a crime and moves to a startling climax in the desert when the desperadoes who have used cunning with successful one at that.

Gertrude Michael plays the part of the thrill-seeking girl who gets a reporter into trouble—George Murphy is the reporter. Other who further the action are Akim Tamiroff, as the Federal agent, Roscoe Karns, Samuel Hinds Jean Jagger.

"COLLEEN"—MAJESTIC
THEATRE

This picture is a rollicking musical comedy with an all-star cast including Dick Powell, Ruby Keeler Jack Oakie, Joan Blondell, Hugh Herbert, Louis Fazenda and Paul Draper.

The story, written by Robert Lord, is packed with rollicking comedy, romance and a touch of real drama. There is more of a plot than in the ordinary musical, and it concerns the efforts of Powell to straighten out the business affairs of his wealthy and eccentric uncle, as well as his love scrapes. Incidentally Dick and Miss Keeler go in for some romancing and are all tied up in a score of hilarious entanglements, which are eventually straightened out in a smashing climax.

BRIDGE NOTES

Unwise Doubles

By Ely Culbertson

A player considering making a penalty double should give the most careful consideration to various factors. First, he must realize that he is about to give the declarer some invaluable information as to the location of key cards, hence he should weigh the value of the potential penalty against the additional chance he is presenting to the opponents. This does not mean that he should "lean over backwards" in doubling for penalties, but simply that he should take care that his doubles are not mere boomerangs, to return and slice off his own head.

It is particularly foolish to double a suit that you know will not be the final contract, unless you feel reasonably sure that either you or your partner can take care of the opponents' best suit.

In to-day's hand East should have known that there was no chance of North's six club bid standing as the final contract. Therefore, he merely wasted his breath in doubling it, and made the declarer's slam contract in spades infinitely easier. South, dealer.

Both sides vulnerable.

H None
D 10 8 7 5

The bidding:
South West North East
4 Sp. 5 Ht. 6 Cl. Double
6 Sp. Pass Pass Double
(final bid)

The fact that East had five clubs to the Q J made his double of that suit unwise. It was inconceivable that South, who had started with a pre-emptive spade bid, would allow the contract to stand. The double of six spades was much better, but its effectiveness was nullified by the previous double.

West opened the ace of hearts and the declarer ruffed. Six rounds of trumps, on the last four of which dummy discarded one diamond and three clubs, left East in an uncomfortable position. He had to keep four clubs to guard the dummy's four and was reduced, therefore, to the blank K Q of diamonds. Declarer conceded a diamond trick and took the rest, for his doubled slam contract.

Without the information that the clubs were banded in the East hand, declarer might well have tried to establish the suit by one ruff.

"FORGOTTEN FACES"—STAR
THEATRE

The powerfully dramatic story of two shattered lives, wrecked through the faithlessness of a woman whose burning love is turned to bitter hate by her husband's superstitious worship of heliotrope, is brought to the screen in "Forgotten Faces."

Starring Herbert Marshall, as the husband, and with Gertrude Michael as his wife, "Forgotten Faces" offers a stirring plot that surges with drama, intrigue and romance.

Marshall's performance in "Forgotten Faces" undoubtedly tops anything he has done before. Gertrude Michael, as his wife, gives an outstanding interpretation of her role. James Burke does a fine job as the police-sergeant. Jane Rhodes as the young daughter, and Robert Cummings as her fiance, supply the love interest.

LEAVESTake-Off For Calcutta
At Dawn

Disappointed in their plan to fly to England across Russia and Europe, the two New Zealand aviators Francis C. Chichester and F. Herick, arrived in Hong Kong yesterday evening at 5.35 o'clock from Nanking. They made the trip in a little over nine hours flying time, a break of about two hours being made at Foochow.

Immediately the plane landed at Kai Tak yesterday it was put in the hands of Mr. V. J. Neale, of the Far East Aviation Company, and an overhaul was commenced. They took off this morning at 8.05 a.m. for Calcutta via Vinh.

EX-JUDGE RESCUES
LONDON STUDENTS

Dinghy Capsizes In Sea

Sir Norman Kemp and his son, Mr. Peter Kemp, rescued two young London University students whose sailing dinghy had overturned half a mile from shore off Minard Point, a lonely part of the Argylshire coast. The two men, Peter and John Rawlins, sons of a London doctor, had been clinging to their sinking dinghy for about half an hour when their plight was observed by Sir Norman Kemp, a former High Court judge in India, who owns the Minard estate. He and his son immediately went out by boat and brought them safely ashore.

line troops were being relieved. Elsewhere the insurgents claim that Colonel Yague, the victor at the battle of Badajoz, had occupied Talavera, and allege that a Government plane bombed the hospital at Jaca. The commander of the garrison in Jaca has announced that for each further bomb dropped on the hospital, five prisoners will be shot.—Reuter.

GOVT. AIR RAID

Hendaye.—The battle for Irun was resumed at dawn, the operations beginning with a Government air raid on the insurgent concentrations and heavy artillery bombardment.—Reuter's Bulletin Service.

GOVERNMENT FORT SHELLED. Hendaye.—A group of Spanish nationalist fliers took up the bombardment of a Government troop position on the Irun-San Sebastian front last evening at 6 p.m., many houses being demolished and set on fire on the outskirts of Irun. The Marxists have evidently brought a long range gun into position, which is shooting continuously in the direction of Oyarzun.

At 6.30 p.m., a destroyer flying the Nationalist colours, began to shell the Government forts at Guadalupe and Puente de Ibañeta. The result is that the Nationalists advanced about 300 metres to the village Behovia, which was completely evacuated.

Thousands of refugees are arriving at Biarritz, Jean de Luz and Bayonne.

710 ARE SHOT

Berlin: A particularly graphic account of atrocities in the Madrid prisons is given by the special reporter of the Berlin *Nacht* *Ausgabe*, who states that, in the main prison hundreds are shot daily.

A mass execution of all prisoners in the main prison and about 1,200 aristocrats was planned to take place on Saturday under the direction of a special committee. The British Minister, however, discovered the plot and informed the Spanish Foreign Minister, who intervened, whereupon a special tribunal was formed, which pronounced death sentences on 250 persons on Saturday and 460 on Sunday, these being carried out on the spot.

IRISH VOLUNTEERS READY. Dublin.—Following an appeal by General O'Duffy, leader of the Irish Blue Shirts for the formation of an Irish Volunteer Corps to assist the Spanish insurgents, 5,000 men are stated to have reported for service. The Secretary of the United Ireland Party declared, however, that the volunteers will travel to Spain not equipped with weapons.

"BELLE ISLE" FEARS

Paris.—The steamer Belle Isle, whose crew refused to continue the voyage from Bordeaux, since they feared that the cargo of guns and other war materials on board, although consigned to Argentina, could be unloaded at Lisbon and come into the hands of the Spanish Nationalists, will shortly leave port, it is announced, the crew having decided to continue the voyage even if the ship stops at Lisbon.

POPE DENOUNCES REDS. Rome.—All the Spanish bishops who succeeded in leaving Spain will shortly be received in audience by His Holiness Pope Pius XI at the Papal summer residence, the Castel Gondolfo. The Pope, during the audience, will deliver an address, in which he will emphatically protest against the destruction of church property and other crimes committed by the Spanish Reds.

It is declared that His Holiness has declared that the time has now come to leave the present reserve, and make an open declaration against those who have written the destruction of the Church on their banner.

LEAGUE POST RELINQUISHED. Geneva.—The Secretary-General

WEATHER REPORT

Pressure is highest over the Pacific to the east of Japan. The typhoon is crossing Korea on a north-north-east track; the China Sea depression has entered the coast to the south of Haiphong. The local forecast for to-day, as issued by the Royal Observatory, this morning, is south-east winds, moderate; cloudy generally, some rain.

of the League of Nations, M. Avel, announces that the deputy Secretary-General, M. Rosenberg, has been appointed Soviet Russian Ambassador to Madrid, and has, therefore, tendered his resignation from his League post, which has been accepted.—Trans-Ocean Service.

ANGLO-EGYPTIAN TREATY

(Continued from Page 5)

SUDAN CLAUSES. The Sudan clauses provide that the administration of the Sudan will continue to be the same as that resulting from the condominium agreements of 1899. It is agreed that the primary aim of the administration must be the welfare of the Sudanese. The parties reserve the liberty to conclude new conventions regarding the Sudan in the future and the question of the sovereignty of the Sudan is not to be prejudiced by the treaty.

While His Majesty's Government recognise that the responsibility for the lives and property of foreigners in Egypt devolves exclusively upon the Egyptian Government, the Egyptian Government undertake that they will ensure the fulfilment of their obligations in this respect. The European Bureau of public security department will disappear on ratification, but for a further five years, the European element will be retained in the Egyptian city police, which will remain for the same period under the command of British officers.

His Majesty's Government recognise that a capitulatory regime is no longer in accord with the spirit of the times and the present state of Egypt, and agree, therefore, to support Egypt in the immediate approach to other Powers with capitulatory rights with a view to an agreement on the following points:

Firstly: the disappearance of the existing restrictions of Egyptian sovereignty in the matter of the application of Egyptian legislation, including financial legislation, to foreigners.

Secondly, the transitional regime, for a reasonable and not unduly prolonged period, is to be fixed by agreement, during which mixed tribunals will remain and will exercise, besides their present judicial functions, the jurisdiction of a consulate court. At the end of this period the Egyptian Government will be free to dispense with these tribunals.

The Egyptian Government undertake that this legislation will be made available to foreigners and will not be inconsistent with the principles of modern legislation or discriminate against foreigners.

LEAGUE MEMBERSHIP

Egypt will apply for membership of the League of Nations and her application will be supported by the British Government. It is stated that the rights and obligations of both parties, under the League Covenant or Pact of Paris, are not prejudiced by the Treaty and that any difference regarding the application or interpretation of its provisions, which cannot be settled by direct negotiation, will be dealt with in accordance with the provisions of the League Covenant.—British Wireless Service.

WEEKLY ZEPPELIN SERVICE

Berlin, to-day.—A weekly Zeppelin service will be inaugurated to South America on October 21, in place of the fortnightly service as hitherto. The airship Hindenburg is to be put on this service as soon as three more journeys to North America are concluded.—Trans-Ocean Service.

DETECTING STORMS FOR SHIP'S SAFETY

Hamburg, To-day.—On board of the steamer Hagen an interesting discovery has been made—that it is possible, with the help of the ship's amplifier, to discover the direction and movement of storms. Thunderstorms release electric waves so that the ship's wireless has now another task imposed upon it, namely to detect the existence of storms and locate them, so that the safety of craft and passengers can still further be secured.—Trans-Ocean Service.

COMPENSATION CLAIM

Partners' Sons Shot By Madman

APPEALS DISMISSED BY CONSENT

The shooting of two men by a man now in Broadmoor Asylum was described last month to the Court of Appeal, when a claim for compensation by John Aubrey Barnett and Leslie George Knight, whose respective fathers are partners carrying on business as Barnett and Knight, was settled.

The firm had appealed from a decision of Judge Spencer Hogg at Redhill County Court awarding each of the sons 30s a week. Mr. E. W. Cave, K.C., for the firm, said the parties had now come to an agreement.

Mr. J. A. Barnett would get £50 and costs, in addition to the weekly compensation from August 16, 1935, the date of the shooting, to his return to work on May 21. Mr. L. G. Knight, who was totally blind as the result of the shooting, would receive £500 and costs, as well as the compensation already paid to him.

Replying to Mr. Justice Goddard, Mr. Cave declared that an ex-employee of the firm, who appeared to have gone mad, walked on to the premises and shot the two sons. Mr. Phineas Quass, for the sons, agreed to the terms mentioned, and the firm's appeals were dismissed by consent.

TREE STUMP AS GARAGE

24-Foot Wide Room Provided

NEW USE FOR 3,000-YEAR OLD REDWOOD

Absence of a garage is not a problem to "stump" Mr. J. T. McCarthy, of Pepperwood, California. All he had to do to provide shelter for his motor-car was to utilise the stump of a giant redwood tree located behind his house.

This garage was already prepared for its owner, as the stump of this great redwood tree, which is estimated to be more than 3,000 years old, was hollowed out several centuries ago by Indians who used it as a one-room house. It is 24 feet wide and provides ample space for the purpose it serves to-day.

Reproduced From Seed

The Big Tree, *Sequoia gigantea*, is sometimes confused with the redwood, *Sequoia sempervirens*, the smaller species of sequoia found only in the Coast Range of California. While the gigantea approaches 40 feet in base diameter, the sempervirens rarely exceeds 20 feet. The wood is similar in colour and texture, but the foliage is distinct, and the bark of the Big Tree is much thicker and of a red red colour instead of a dull brown. The most distinctive characteristic is that the Big Tree is reproduced only from the seed, while the redwood when cut down sprouts from the stump.

ABOLITION OF TITLES

Prague, to-day.—The Czechoslovakian Ministry of Interior has drawn up a bill modifying the law for the abolition of aristocracy and titles. The bill provides for orders which can be bestowed, not only upon soldiers, but also on civilians for service to the State. Foreigners are also entitled to receive these orders.—Trans-Ocean Service.

QUAKE JARS THREE STATES

Topped chimneys and at least one damaged building marked the Walla Walla valley last month as the apparent centre of an earthquake which awakened residents of three Pacific Northwest States and sent many running into the streets. The tremors were felt for several seconds. Milton-Freewater, Ore., reported the heaviest loss of any shaken town.

\$8,000,000 VAULT

Eight million dollars in rare books and manuscripts are in one small vault on East Fifty-first Street, New York. The owner is A. S. W. Rosenbach—and he has three other vaults!
